Europe moves ahead on AI regulation, challenging tech giants' power

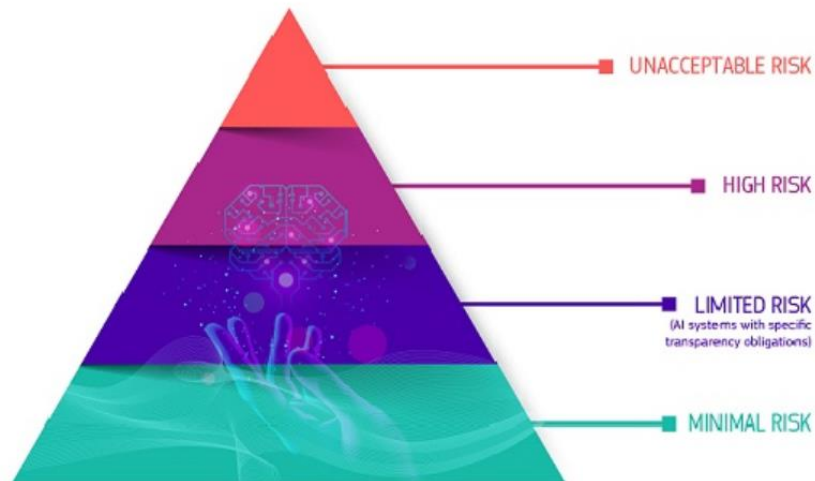

Brussels brought a new antitrust challenge against Google on the same day European lawmakers voted to approve the E.U. AI Act – lapping counterparts in the U.S., where legislation has languished

A risk-based approach

The Regulatory Framework defines 4 levels of risk in AI:

בינה ללא מוסר, רגולציה נגררת

- כשטכנולוגיות מפותחות ומופצות במהירות ללא קוד מוסרי או רגולציה – אנו, כמשתמשים וארגונים, עלולים לאבד שליטה.

What does a tech founder and CEO look like?

PARTN

Results produced by Dall-e following a prompt to create a portrait of a founder and CEO of a Fortune 500 tech company. Image: [OpenAI](#)

How did Dall-e generate a founder and CEO? Of these 32 images, only nine (28%) were women. Of these women, six were white. The remaining 13 images were of men and, save for three, were of white men. However, it must be noted that this is a small sample size, and we cannot generalise beyond this example.
